

SUSTAINABLE ACTION TRAINING

Turn knowledge into action

TAILORED SUSTAINABILITY TRAINING THAT TURNS KNOWLEDGE INTO ACTION.

Brisbane Sustainability Agency delivers a flexible range of science-based sustainability education experiences designed to help individuals, organisations and students understand why sustainability matters and how to take meaningful action.

Our training makes complex concepts clear and accessible, transforming knowledge into action through practical, solutions-focused learning. Every session is interactive, engaging and tailored to your audience, empowering participants with the confidence and capability to contribute to sustainability; at home, at work, on campus or within their community.

From fast, introductory presentations to collaborative workshops and internationally recognised certification, Sustainable Action Training offers a suite of unique learning formats designed to meet your needs, build sustainability literacy and support real-world impact.

WHY TRAIN WITH US

Science-based, practical and engaging, our training makes sustainability accessible and actionable for every audience. With certified facilitators, tailored content and hands-on learning, we help people feel confident and motivated to make real change.

Grounded in science

Our training is built on evidence-based climate and sustainability research, ensuring participants gain accurate, credible knowledge they can trust.

Focused on practical behaviours and solutions

We translate complex science into clear, actionable steps for homes, workplaces, schools and communities, empowering real change, not just awareness.

Delivered by experienced, certified facilitators

Our trainers are qualified sustainability professionals and certified Carbon Literacy and Climate Fresk facilitators skilled in guiding engaging, inclusive and impactful learning experiences.

Tailored to your audience, context and goals

Every session is designed around your sector, priorities and desired outcomes, with examples, case studies and solutions shaped to your real-world environment.

Engaging, collaborative and empowering

Through hands-on activities, discussion and interactive learning tools, participants feel motivated, confident and ready to take meaningful action.

We need to show we're doing something real, not just talking about it

We want people to understand sustainability and feel confident taking action.

We want to take meaningful action, even with limited resources.

We want sustainability to feel doable, not overwhelming.

WHO IS THIS TRAINING FOR?

Built for business, education and community - and individuals, ready to make change

Workplaces & organisations

A business or organisation wanting to embed sustainability into culture, capability and everyday practice. Training can strengthen ESG outcomes, build staff leadership, and be tailored with sector-specific case studies and solutions.

Education & learning institutions

A school or university building future-ready sustainability skills your students can use now and throughout their careers. Our curriculum-aligned content supports deep understanding and real-world application.

Communities & small enterprises

A small business or community group maximising limited time and resources while inspiring practical, science-based action in your workplace or community.

I want to build my own sustainability knowledge and confidence.

Individuals

For individuals who want to upskill, live and work more sustainably, or lead change in their homes, workplaces or communities. Our open sessions are accessible, practical and designed for anyone at any stage of their sustainability journey.

FOUR TRAINING OPTIONS

From one-hour presentations to courses that offer internationally-recognised certification, we provide a range of unique and engaging learning formats with tailored content to suit your needs.

Action Curious

1-hour

In-person or Online

A fast, accessible introduction to practical sustainability concepts for busy audiences.

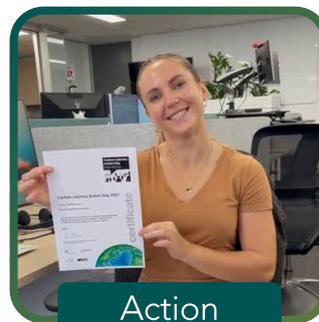

Action Learner

3-hour

In-person (preferred) or Online

A hands-on, collaborative workshop that makes climate science easy to understand through interactive, game-based learning.

Action Leader

8-hour Certified

In-person or Blended

An in-depth, internationally recognised Carbon Literacy course that builds strong climate knowledge and real-world action skills.

Action Changermaker

Bespoke

Custom

A tailored sustainability engagement program designed to meet your organisation's specific goals and challenges.

PRICING

Please submit an [enquiry form](#), and our team will be in touch to confirm your session details and participant numbers. Once confirmed, we will provide a formal quote. Pricing may vary if venue hire is required or if you'd like the session to be highly customised to your organisation.

| Action Curious | Action Learner | Action Leader | Action Changermaker |
|----------------|---|---------------------------------------|---|
| \$699 | \$1,990 - \$5,990 (Pricing varies on group size) | \$349 per person (min group of 10) | Custom, please get in touch for a quote |

For Individual Bookings (Open Sessions)

Pricing for open sessions that individuals can book will be displayed on each session's event page. The pricing above applies only to private group bookings; individuals will see the relevant ticket price listed within the session details when available.

ACTION CURIOUS

1-hour

In-person or online

\$699

Action Curious Presentations are designed to spark curiosity and inspire practical steps toward sustainability. These one-hour presentations introduce key concepts in an engaging, interactive format, making sustainability accessible and actionable for everyone.

AGENDA

Welcome and context

A brief introduction to why sustainability matters.

The science made simple

A clear, accessible explanation of how climate and sustainability systems work.

What sustainability looks like in practise

Real-world examples tailored to the audience.

Actions that make a difference

Practical, achievable actions participants can take at home, at work, or in their community

Opportunities and benefits

How adopting sustainable practices creates value.

Q&A and next steps

Our presentations combine visual content, interactive questions, and group discussion to create an engaging learning experience. Each session ends with practical resources and ideas for immediate action. Every presentation is tailored to the audience, ensuring discussions are relevant and spark the most impactful conversations for participants.

Why choose our presentations

Interactive & engaging

Presentations, videos, activities and discussions.

Science-based & practical

Evidence-led content focused on real solutions.

Tailored to your audience

To spark the most impactful conversations.

Further resources and support

Resources provided for further learning and immediate next steps.

Experienced facilitators

Delivered by trained facilitators in a relaxed, friendly environment.

If there is a particular topic you would like us to explore that is relevant to your team, please let us know and we will chat about how we can accommodate your needs.

ACTION LEARNER

3-hour

In-person or online

See Pricing

Action Learner workshops provide an engaging, hands-on learning experience where participants work together through the 42-card Climate Fresk activity. Our certified facilitators support participants throughout the workshop, helping them build confidence with scientific concepts, understand complex systems, and discover practical, empowering actions they can take in their organisation, community or at home.

Climate Fresk is a globally trusted, science-based workshop model rooted in the IPCC reports, with more than 2 million participants across over 170 countries, making it one of the world's most widely adopted climate education tools.

SESSION OVERVIEW

Climate Fresk Game

Participants work together in an interactive card-based activity that helps them understand key climate science concepts — including how greenhouse gases, the carbon cycle and climate impacts are connected — in a simple and engaging way.

Reflection

The group pauses to reflect on insights from the activity, share experiences, and explore constructive ways to stay motivated and hopeful.

Solutions & action-taking

With new knowledge and shared clarity, participants explore practical solutions — both systemic and individual — and identify effective actions relevant to their organisation, sector, or daily life.

ACTION LEADER

One-day

In-person
or blended

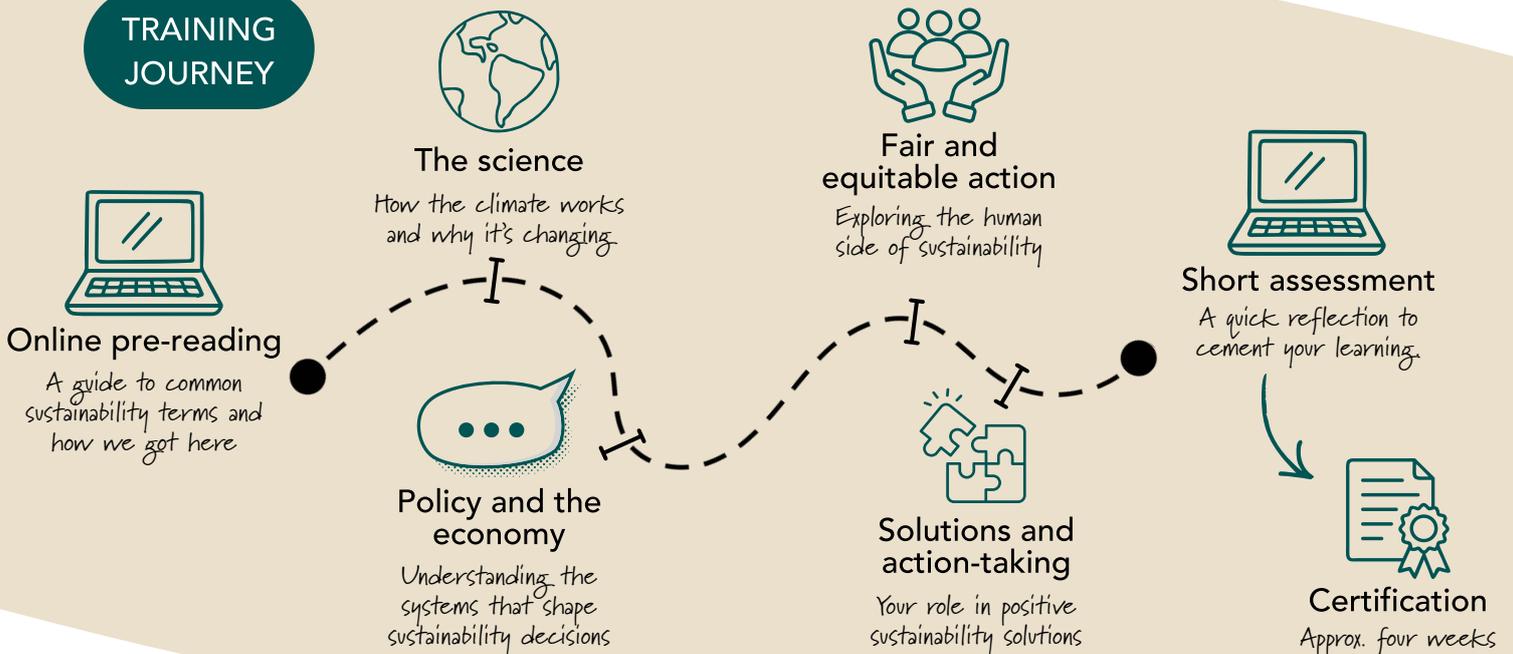

From \$349 pp

The Action Leader, Carbon Literacy training, is an engaging and accredited learning experience where participants develop a clear understanding of how actions contribute to climate impacts, while gaining the confidence and motivation to reduce emissions at individual, community and organisational levels.

Upon completing the course and a short assessment, participants are awarded an internationally recognised Carbon Literacy certification. Organisations may also apply to become a Carbon Literate Organisation, demonstrating sector-leading sustainability leadership

TRAINING JOURNEY

Carbon Literacy Project

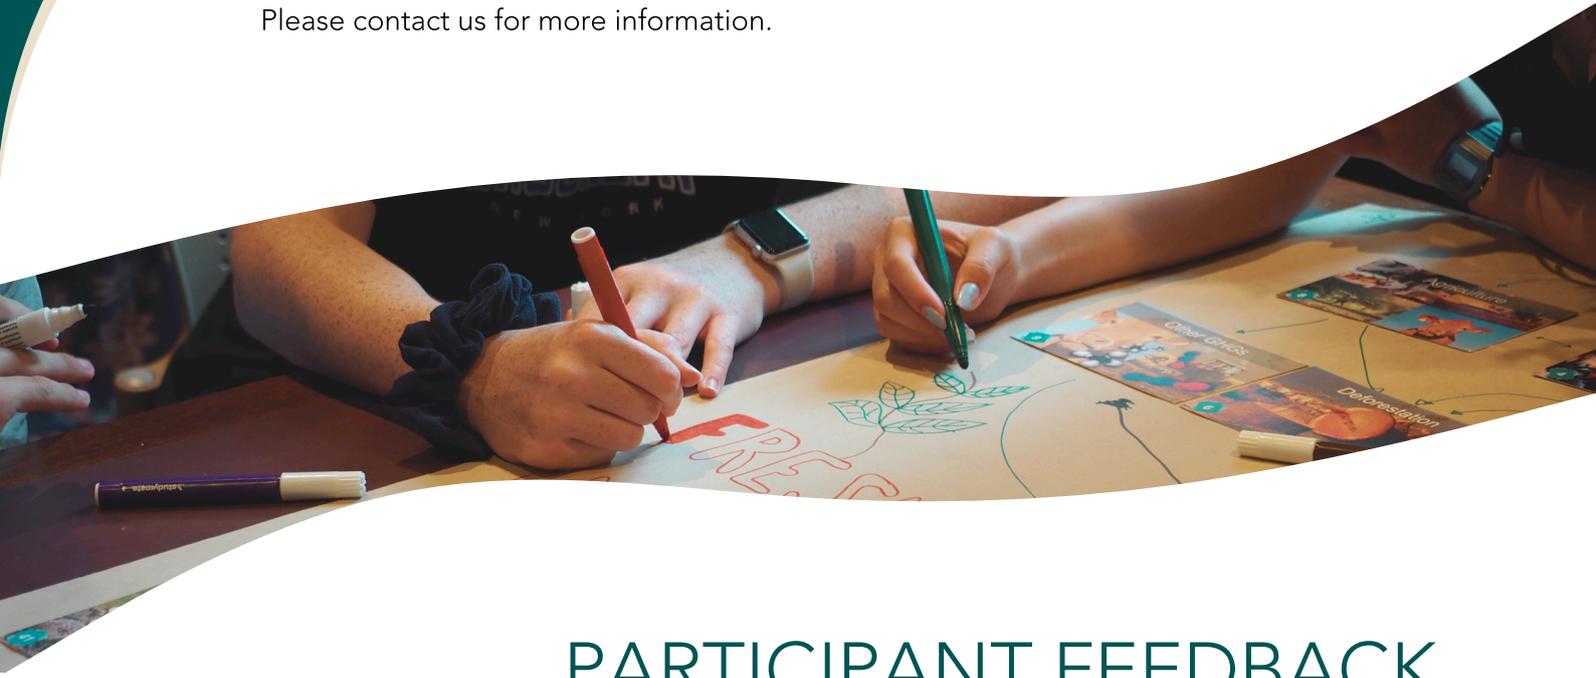

The Carbon Literacy Project (CLP) is an award-winning global initiative, recognised by the United Nations, with over 152,000 people certified worldwide and rapidly growing. Achieving Carbon Literacy certification provides both individuals and organisations with internationally recognised credibility, demonstrating genuine sustainability knowledge, capability and leadership.

Brisbane Sustainability Agency's Carbon Literacy course is written in-house and officially accredited by CLP, ensuring globally trusted quality while being tailored specifically to Australian organisations and communities.

ACTION CHANGEMAKER

Every organisation's journey is different, which is why we offer customised programs shaped around your team's needs and context. From staff education to behaviour-change initiatives, we design solutions that meet you where you are and support real, lasting impact. All bespoke packages are quoted on a case-by-case basis. Please contact us for more information.

PARTICIPANT FEEDBACK

The session hosted by the Brisbane Sustainability Agency was absolutely phenomenal. Having started the session feeling quite apathetic and overwhelmed by the climate crisis, our students then reported that by the end, they felt inspired, motivated, and empowered to make an impact by creating their own innovative solutions.

This transformation in perspective was fostered by the care, detail and depth of the explanations provided by the facilitators during the session. Moreover, our students felt more determined than ever to work in careers that counteract the effects of climate change.

*Chrissie Erickson, Lead Programs Officer
National Youth Science Forum*

I loved the multi-modal delivery with lots of engaging videos and activities. It helped my understanding of the interconnectedness of climate change factors, delivered in a fun and interesting way. I loved the critical conversations I could have with my team mates when figuring out how things linked together.

Overall found the training to be quite moving, scary to realise the extent of human impact, confronting to learn about the damage that has been done, but inspiring to know that we can take action and I'm feeling empowered by the knowledge I gained. Thank you.

*Amelia
Action Leader Course participant*
